# Pond Science Institute

## February, 2017

*"There is nothing in the range of [philosophy](#) which so satisfies the [intellect](#) as the comprehension of this wondrous system of **sympathetic association**, planned by the [Creator](#) of the [celestial](#) and [terrestrial](#) universe, for the [government](#) of all forms of [matter](#)." Keely*

Pond Science Institute

### **SVP Spring Workshop 2017**

Three days (April 21-23) of intensive fun and SVP. We will learn how to learn SVP - Basic Physics, Basic Sound and Vibration, Music Theory, Basic SVP and Intermediate SVP. [Dale Pond](#), Lloyd Morris, Jeremy Pfeiffer and Jerry Williams, will present the subject matter. Lloyd Morris will

do a music performance. There will be many handouts and study materials. The workshop will be presented at the [Pond Science Institute](#) in La Junta, Colorado. Price is \$500.00 - a real bargain - price held until March 1st and will increase on March 1st to \$650.00. No refunds after March 30th. Meals (home cooked) are included in the registration fee as also free hand-outs of books, study materials, DVDs, etc. **USE THE DISCOUNT COUPON NUMBER "SVPRC-10%" AT CHECKOUT AND GET 10% OFF.**

Schedule and More Details -> <http://www.svpwiki.com/SVP+Spring+Workshop+2017>

## **Keely's Forty Laws of Sympathetic Vibratory Physics**

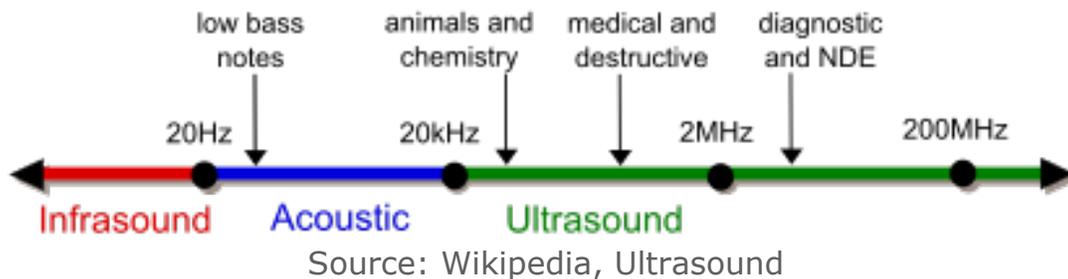

To know and understand Keely's science of Sympathetic Vibratory Physics we need to understand the forty laws he left us. The first series of newsletters begun in 1985 and continuing until 1990 featured one of his laws every month. It was a pleasure to write all those articles digging ever deeper into his concepts and work. A lot was learned from that exercise and I have learned so much since then so why not repeat the series all over again - writing from scratch about each law? My knowledge and insight into SVP since those early days has grown immensely so it is time for a fresh review of those laws.

### **Law of Oscillating Atomic Substances**

"Coherent [atomic](#) substances are capable of oscillating at a [pitch](#) varying directly as the [density](#), and inversely as

the linear dimensions from one **period of frequency** per unit of **time** to the 21st octave above, producing the **creative force of Sonity**, whose **transmissive force** (Sound) is propagated through the media of solids, liquids, and gases, and whose **static effect (Sonism)** produces attractions and repulsions between sympathetically vibrating bodies according to the **Law of Harmonic Attraction and Repulsion**." [Keely]

It is my understanding "atomic substances" are pure elements not compounded or alloyed with any other elements - something like a crystal or pure lump of a simple metal. According to this law these vibrate within a frequency range up to the 21st octave ( $\pm 2,097,152$  Hz) and are the midrange of radio frequencies. (Radio did not exist in Keely's time.) These vibrations behave according to the Law of Force previously discussed and results in cohesion and dissociation according to dynamics as discussed in the Bjerknes Effect, Law of Attraction and Law of Repulsion. It is interesting to see Keely considers frequencies of sound extend this high in the low megahertz range. Today we consider this range the very useful ultrasound range as shown below.

It is also interesting to note Keely considered this multi-phase dynamic as having three distinct parts.

The first being a creative source such as a struck or excited tuning fork creating or originating a sound. The second being the excited medium of transmission, for instance the air. And third the effect on neighboring objects like another distant tuning fork. These three parts of a single tone are different from each other. They are not unlike the issues of a broadcasting radio antenna (creative), the atmosphere (transmissive) and the receiving antenna (static or receptive). In quantum entanglement these three aspects are represented by the first half of a split photon (creative), the etheric substrate (quantum transmissive field) and the second half of the split photon (static or receptive).

The quantum field is the same as the etheric field so often used and referred to by [Keely](#) and other Victorian scientists and engineers. This quantum or etheric field is the [INTERETHERIC SIXTH SUBDIVISION](#) and [compound interetheric seventh subdivision](#) or vacuum substrate [connecting all things - Russell's Void, Space or Zero Universe](#). Because this field is occupied with countless types of quantum or [etheric](#) entities it has countless attributes which accounts for the many seemingly divergent definitions of ether from that time period. According to [Keely](#) its density is very high:

"[Ether](#) is an [atomolic](#) liquid 986,000 times the [density](#) of steel." [Keely](#)

The rule of thumb concerning transmissive mediums the propagation velocity is in direct proportion to its **density**. This being the case transmission rates in the quantum or etheric field are near instantaneous as is shown in those experiments resulting in so-called "**spooky action at a distance**" as in **quantum entanglement, telepathy and remote viewing**. This quantum or etheric substrate is the medium of **Mind and Consciousness**.

### **Supporting PSI is now tax deductible**

*"Equal interchange between opposite conditions manifests the love principle of **balance** upon which **God's universal body is founded**." [Russell, **The Message of the Divine Iliad**, page 76-77]*

It's time to write that check to Uncle Sam to do with as they see fit OR you can make certain some of it goes to creating a better future for us all.

Call or email for additional information.

### **Solar Energy**

Capturing and Using Free Energy from the Sun has gone Exponential

<http://www.treehugger.com/renewable-energy/striking-chart-showing-solar-power-will-take-over-world.html>

### **PSI Project Development**

We have a number of projects in various stages of progress. Our Solar Concentrator Project is designed extra large [8' X 8' mirror surface area] is to produce low pressure steam. Our building has an ancient but working

low pressure steam heat system operating at or below 10 psi. Our furnace runs on expensive Natural Gas. This prototype Solar Concentrator will make steam that can be piped directly into the existing steam plumbing with minimal expense. This design is not intended to fully heat our building. It is designed to raise the background temperature as much as 10 to 20°F degrees during the day time. Should we desire more heat throughout the building we can replicate this unit as many times as needed.

Attaching the mirror

The frame is now complete. The process of attaching the mirrors to the frame is underway. Attaching the mirror to the frame has revealed a number of structure and assembly discrepancies that need correction before we can proceed. We also had to construct a "fitting fixture" that gently presses against the face of the mirror to hold it in alignment as it is attached to the frame.

There are several YouTube videos showing low pressure steam generating Solar Concentrator systems. One such video is [HERE](#). Our reflecting surface is twice the square footage of the one in the video.

### **Solar Power Reaches 97% Efficiency**

Scientists at The Australian National University (ANU) have set a world record for efficiency for a solar thermal dish generating steam that could be used for power stations. The team designed and built a new receiver for the solar concentrator dish at ANU, halving losses and achieving a 97% conversion of sunlight into steam. This is an amazing conversion percentage even higher than nuclear fission. See more here:

### **SVP Membership**

Membership has its advantages and benefits! <http://www.svpwiki.com/Subscribe>

Notices and news for Members Only. (Must be logged in to view.)

**A Gift!** - FREE ebooks/pdfs for download (to be added to from time to time): <http://www.svpwiki.com/pdf/files/>

## **SVPBOOKSTORE**

Our shopping cart software was recently moved to a more modern and secure server. Other changes will be coming too such as making purchases without having to login and special discounts for members.

There is a **30% off** sale (on many products) going on right now at [svpbookstore.com](http://svpbookstore.com).

Our shopping cart accepts Visa, MasterCard, American Express, PayPal and an assortment of crypto currencies.

### **Discount an Additional 10% Off!!!**

The svpbookstore.com is issuing a 10% discount coupon (on purchases over \$20.00) which may be used together with the above 30% resulting in a whopping 40% off most items! The coupon code is valid to **March 01, 2017**. Simply select your items and enter this coupon code during check out:

### **The Physics of Love 2.0**

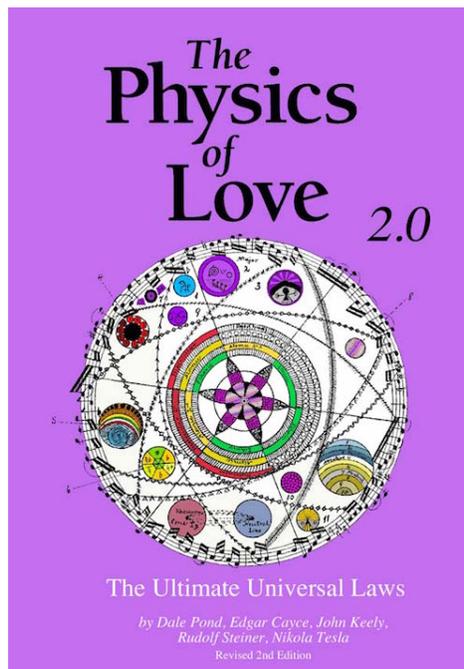

This new edition of The Physics of Love brings this important work up to date with what has been learned about SVP since the book was first published in 1994. This rewrite is a major rewrite and reorganization of old and new materials including many new illustrations detailing what Love is. The material is extensively referenced and footnoted. Those who have read the first edition will agree the material has been massively reworked into a coherent whole explaining the basic

physics and connections of and between matter, energy, music, geometry, polarity, color, vibration, Love, Spirit and Mind. This 2.0 edition is dedicated to Dr. Masaru Emoto because of his fine work with vibrations and the power of thought on our environment and things in it. 162 pages, 8 1/2" X 11" Perfect Bound. The new 2.0 edition can be ordered here:

"This is your best book ever!" Jerry Williams

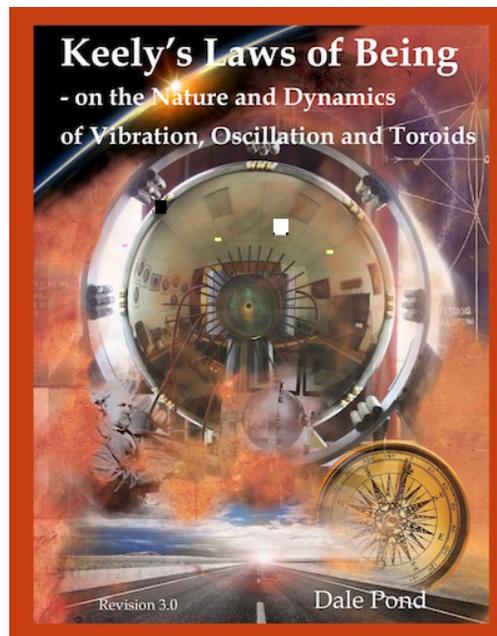

The Physics of Love 2.0

## Keely's Laws of Being - 3, 6 & 9

Keely's "Laws of Being" appear to be the source of Nikola Tesla's famous quote: *If you knew the magnificence of 3, 6 and 9, then you would have the key to the universe.* In this book you will learn: 1) what Tesla thought so important about these numbers, 2) how to access this

long lost knowledge, 3) how to apply it to your research, work and experiments, 4) that forces, of whatever kind, are a triune combination of subtler polar forces in discrete ratios and proportions, 5) what these subtler polar forces are, 6) all things are connected 7) what the connecting link is, why and how it works 8) all individuals are connected through laws and principles. This awareness, about the hitherto ignored inner nature of vibration, motion and power, can and will cause a massive yet positive shift in all branches of science, engineering and society as a whole. Read more information about this book in the [svpwiki.com](http://svpwiki.com) here. Order here.

Keely's Laws of Being **3.0**

## Testimonials

"Brilliant! Dale, this is your best work ever. I can tell it is inspired. For the first time I can read at the beginning and it builds up mental images in a concise manner of how Keely was able to manipulate vibration, power, force and energy. Everyone interested in understanding Keely's

work ought to read this book as a first introductory step."  
Jerry Williams

"Your latest book, Keely's Laws of Being 3.0, is a joy for me to read. Like Jerry states, it is coherent. I find it logical, enlightened and enlightening. You have done a fantastic job of explaining physical phenomenon in terms of Keely and Russell, especially in terms of the sympathetic nature of Love. Those are ideas that I can hold in my consciousness during my daily activities. The act of observing and being aware of the sympathetic connection heightens and magnifies my experience of the joy, happiness and love in which we have our being." C.

"The most important book in my library. My obsession."  
Jeremy Pfeiffer

"The edition I have is simply the best and over encompassing manual I ever studied." BC

Our purpose at the Pond Science Institute is to Awaken to higher levels of consciousness or Cause - not just phenomena on the 3D sense level (classical physics) of Effect. In the higher realm of Cause we work with ideas, intuition, art and subtle energy physics (nonclassical physics) thus building the Connecting Link between these two realms in Mind, Heart, Body and Energy. Three good examples of Awakened individuals are Edgar Cayce, Walter Russell, Phineas Quimby, Nikola Tesla and John Keely. We will stay focused on this purpose and mission.
