

Sympathetic Flow of Mind

"The **Etheric** field is **God**. It is the pulse and the matrix that holds everything together. Through your humility, you ask **God** to work through you, not to be in charge of you but to co-create with **God**. The **intellect** causes **separation** but it is through the **Etheric** Field where the past, present and future; the **mind**, emotions and physical body all come together and can be healed." [Buddha Maitreya]

"Although physicists know that this extraordinary influence exists between inanimate objects as a class, they look upon the human organism as little more than a machine, taking small interest in researches which evince the dominion of **mind over matter**. Keely's experimental research in this province has shown him that it is neither the electric nor the **magnetic flow**, but the **etheric**, which sends its current along our nerves; that the electric or the magnetic bears an infinitely small **ratio** to that of an **etheric** flow, both as to **velocity** and **tenuity**; that true coincidents can exist between any mediums - cartilage to steel, steel to wood, wood to stone, and stone to cartilage; that the same influence (**sympathetic association**) which governs all the solids holds the same governing influence over all liquids; and again, from liquid to solid, embracing the three kingdoms, animal, vegetable and mineral; that the action of **mind over matter** thoroughly substantiates these incontrovertible **laws** of **sympathetic etheric** influence; that the only true medium which exists in nature is the **sympathetic flow** emanating from the normal human **brain**, governing correctly the **graduating** and setting-up of the true **sympathetic** vibratory positions in machinery necessary to success; that these flows come in on the **order** of the fifth and seventh positions of **atomic subdivision**, **compound ether** a resultant of this **subdivision**; that, if metallic mediums are brought under the influence of this **sympathetic flow** they become organisms which carry the same influence with them that the human **brain** does over living physical positions - that the composition of the metallic and of the physical are one and the same thing, although the **molecular** arrangement of the physical may be entirely opposite to the metallic on their aggregations; that the harmonious chords induced by **sympathetic** positive vibration permeate the molecules in each, notwithstanding, and bring about the perfect **equation** of any **differentiation** that may exist - in one, the same as in the other - and thus they become one and the same medium for **sympathetic transmission**; that the **etheric** flow is of a **tenuity** coincident to the condition governing the seventh **subdivision** of **matter** - a condition of subtlety that readily and instantaneously permeates all forms of aggregated **matter**, from air to solid hammered steel - the **velocity** of the permeation being the same with the one as with the other; that the **tenuity** of the **etheric** flow is so infinitely fine that any magnifying glass, the power of which would enlarge the smallest grain of sand to the size of the sun, brought to bear upon it, would not make it **visible** to us; that **light**, traversing at the speed of 200,000 miles per second a distance requiring a thousand centuries to reach, would be traversed by the **etheric** flow in an indefinite fragment of a second." [Keely and His Discoveries]

"The **sympathetic flow** emanating from the normal human **brain** comes in the Fifth and Seventh Positions of **atomic subdivision** with **compound interetheric sympathy** a **resultant**." [PHYSICAL VIBRATIONS]

"There is good reason for believing that **insanity** is simply a condition of **differentiation** in the **mass-chords** of the **convolutions**, which creates an **antagonistic molecular bombardment** towards the **neutral** or **attractive centres** of such **convolutions**. This may be compared to a knot on a violin string. As long as this knot remains, it is impossible to elicit, from its **sympathetic** surroundings, the condition which transfers pure **concordance** to its resonating body. **Discordant** conditions (i.e., **differentiation** of **mass**) produce **negatization** to **coincident action**. Pure **sympathetic concordants** are as antagonistic to **negative discordants** as the negative is to the positive; but the vast volume the **sympathetic** holds over the **non-sympathetic**, in ethereal **space**, makes it at once the **ruling medium** and re-adjuster of all opposing conditions, when properly brought to bear upon them. Josiah Royce is right as regards correspondent **sympathetic association** between two conditions. If **concordance** can be established, even of unlike states, no matter whether it be of the high tenuous forces of nature, gases with liquids, liquids with solids, solids with gases, the structural conditions can be perfectly adverse. Their **neutral centres** are the **focalized seat** of **sympathetic concordance** for controlling any **differentiation** that may exist outside, or in the **mass** that surrounds them. Certain **orders** of **vibration** can reach these centres and establish a **concordant flow of sympathy**, independent of any **mass antagonism**; in other words, certain orders of **sympathetic vibratory transmission** can correct and equate all **differentiation** that may exist between physical

organisms and their **cerebellic flows**. [Discord is disease. Harmony is health.](#)"" - [Keely." [[Vibratory Physics - The Connecting Link between Mind and Matter]
